Update from the RIPE NCC

Chris Buckridge | 24 October 2018 | ICANN 63

RIPE 77 (and Other Events)

- **RIPE 77 held last week in Amsterdam**

  - 802 attendees over the course of the week

  - Policy discussions looking at registration model, while plenary presentations on security, networking technologies etc.

  - https://ripe77.ripe.net/programme/report/

- **Also recently held second Kazakhstan regional meeting in Almaty**

Negotiating the Regulatory Maze

- **Participating in ITU Plenipotentiary 2018**

  - Also following Study Group 20 and other ITU discussions around IP addressing

- **Following developments in EU regulation**

  - Working with an agency in Brussels

  - Understanding impact on RIPE NCC operations and our members and community

  - Current focus points include e-evidence proposal, GDPR, NIS Directive and proposal for Cybersecurity Act

Read more at RIPE 77 Cooperation WG…

Evolving Engagement

- **Membership and community increasingly diverse**

- **Tailoring engagement to sectors, regions:**

  - Telecommunications / mobile sector (ETNO, GSMA)

  - Academic sector (universities, NRENs)

  - Law enforcement community (Europol, national authorities)

  - IoT players (AIOTI, new RIPE Working Group)

  - Banking and finance members

Fostering Technical Communities

- **Supporting national and regional Network Operator Groups**

  - Around 20 national NOGs in service region

  - RIPE NCC supports financially, provides speakers and expertise, facilitates information exchange between NOG organisers

Current known NOGs

Reflecting Our Diversity

- **RIPE is a diverse community in terms of culture, gender, language, access**

- **RIPE established a Diversity Task Force in May 2017**

  - Early outputs include childcare at RIPE Meetings, articles on RIPE Labs, presentation at RIPE 77

  - Developing proposals and ideas on how to give a wider diversity of people a chance to participate and contribute to RIPE discussions and decision-making
